## About me

I'm a web developer with experience in creating SPA's using **React** and **Angular** and backend services using **NestJS** as well as in **mentoring**. My main area of expertise is building robust and scalable **design systems**, as well as developer tools and documentation, leveraging tools such as **Storybook**, **MDX**, **Vite/Webpack** and **TypeScript**.

## Languages

**ENGLISH** - professional fluency

**SPANISH** - professional fluency

**GALICIAN** - conversational fluency

**UKRAINIAN** - native

**RUSSIAN** - native

## Tech stack

- React | Angular | Next.js
- Storybook | Unit and Snapshot testing
- Webpack | Vite | Rollup | ESbuild
- Node.js | Express | NestJS | SQL
- Redux | Redux toolkit
- JavaScript | TypeScript
- SASS | Styled-components | Tailwind CSS | Radix UI
- React hooks | React-Router-Dom | React-hook-form | HTML | CSS | Responsive UI
- Git | GitHub | Bitbucket | GitLab
- Figma | Postman

## Work Experience

2023 - present

### Deloitte Spain

#### Software Engineering Analyst

- Maintained a large Angular/NodeJs codebase, which included unit and integration testing with Jest
- Introduced Storybook with snapshot and integration tests for the Front-end

2022 - 2023

### Doers DF

#### Frontend Developer, Team Lead

- Developed and optimized a React app leveraging key technologies such as React Query and Zustand
- Utilized module bundlers to improve application performance and maintainability
- Conducted thorough code reviews to ensure best practices and maintain code quality

2020 - 2022

### IT-INCUBATOR

#### Full Stack developer, Team Lead

- Maintained and updated an educational platform, admin panel, and design kit
- Spearheaded the design kit development, utilizing module bundlers, researching styling solutions, and implementing storybook and monorepos
- Set up CI and testing environments for project optimization
- Developed and taught a 16-hour course focused on creating and maintaining scalable design systems with Storybook
